

EBISA AJEMA BEGI

JUNIOR SOFTWARE ENGINEER | PYTHON , DJANGO , ODOO / ERP

Location:Addis Ababa, Ethiopia

Phone no. : +251 972 028 885 /+251934619421

Email: ebisaajema34@gmail.com

LinkedIn: linkedin.com/in/ebisa-ajema-3ba55b274

GitHub: github.com/Ebisa-Ajema

Portfolio: ebisa-ajema.github.io/my-portofolio

PROFESSIONAL SUMMARY

Software Engineering graduate building web applications and business tools with Python, Django, PostgreSQL, React, and Odoo 17. Developed projects involving sales-profit reporting, REST API authentication, and a civic information platform, with emphasis on practical workflows, data management, and role-aware access.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks: Django, Django REST Framework, React, Odoo 17, Tailwind CSS, Bootstrap

Databases & APIs: PostgreSQL, REST APIs, JWT authentication

Tools & Reporting: Git, GitHub, XML, QWeb PDF reports, Excel export

SELECTED PROJECTS

Advanced Sales Profit Report — Odoo 17

Extended sales-order workflows to calculate product cost, profit, and margin for confirmed sales. Built a wizard with date-range and salesperson filters, plus QWeb PDF and Excel exports with sales-management access controls.

Stack: Python · Odoo ORM · PostgreSQL · XML · QWeb · Excel | GitHub: github.com/Ebisa-Ajema/advanced-sales-profit-report

Gojo City Administration Platform

Designed a civic platform for city information, departments, projects, and announcements. Built a responsive React/Tailwind frontend and planned a Django/PostgreSQL backend for structured municipal content.

Stack: React · Tailwind CSS · Django · PostgreSQL · REST API | Portfolio: ebisa-ajema.github.io/my-portofolio

Student Management System

Built a database-backed student management application using Django and Django templates to organize student records and administrative workflows.

Stack: Python · Django · Django Templates · PostgreSQL | Portfolio: ebisa-ajema.github.io/my-portofolio

Blog Platform / REST Backend

Developed a Django REST Framework backend with an email-based custom user model, profile relationships, API endpoints, serializers, permissions, and JWT authentication.

Stack: Django · Django REST Framework · PostgreSQL · JWT | GitHub/demo link not provided

EXPERIENCE

Intern — Gojo City Administration | Jeldu, Oromia, Ethiopia | Jun 2023 – Aug 2023

Contributed to municipal digitalization activities, including digital-filing concepts, and gained exposure to city technology operations, network environments, and monitoring systems.

IT Intern—Adama City Administration — City Network / Smart City Department | *Adama, Oromia, Ethiopia| jun 2024-Aug 2023*

- ➔ Gained practical exposure to municipal IT infrastructure and Smart City technology operations.
- ➔ Assisted with monitoring security camera systems and observing surveillance infrastructure.
- ➔ Developed an understanding of network infrastructure, technical monitoring, and IT support workflows.
- ➔ Learned how technology supports public infrastructure, city administration, and municipal operations.

EDUCATION & TRAINING

B.Sc. in Software Engineering

Adama Science and Technology University | Adama, Ethiopia | Graduated June 2025

Odoo 17 development: ORM, models, views, security, reports, and wizards; Udacity Data Analysis short course; ongoing practice in Python, Django, React, PostgreSQL, REST APIs, Git, and ERP development.

LANGUAGES

Language	Proficiency
Afaan Oromo	Mother tongue
Amharic	Mother tongue
English	B2 (Intermediate)
